Subject: Portland deserves a better cleanup plan

Dear Administrator Gina McCarthy,

I support the Audubon Society of Portland's call for polluters to clean up the mess they made in the Willamette. I agree with the revisions to the EPA's clean up plan that they are asking for.

Swimming in the river in the summer is good for me because of the exercise I do, and the camaraderie I experience from being with other swimmers. I'd like it to be safe for my health as well. It bothers me that I'm trading off immediate benefits of exercise and friendship for future risks from exposure to the toxic waste in the river.

Please take this opportunity to hold polluters accountable for making the Willamette safe.

Thank you.

Sincerely,
